EDUCATION

Cornell University

MPS in Information Science

Ithaca, NY, USA

Aug 2026 - Dec 2027

New York University

BFA in Interactive Media Arts

New York, NY, USA

Aug 2023 - Dec 2025

- **GPA: 3.952/4.0 | Summa Cum Laude | Tisch Dean's List, 2023-2025**

WORK EXPERIENCE

UI/UX Design Lead (Part-time) | Dunes Institute | Remote

Jul 2026 - Present

- Lead end-to-end UI/UX design for Waybox, a client mobile app, from discovery and requirements definition through user flows, wireframes, and high-fidelity interfaces.
- Serve as the primary design contact, translating client needs and stakeholder feedback into actionable product requirements and iterative design solutions.

UX Researcher (Intern) | Tsinghua Future Lab | Beijing, China

Jun 2026 - Present

- Develop a research protocol to evaluate user experience and self-disclosure in VR-based interviews mediated by AI agents.
- Support VR user studies by configuring and troubleshooting headsets and laptops, integrating AI APIs, and ensuring reliable audio and video data collection.
- Recruit and coordinate participants and conduct semi-structured interviews and usability testing.
- Conduct a literature review on sleep interventions to identify evidence-based opportunities for technology-enabled intervention design.

Web Designer & Full-Stack Developer (Intern) | Dunes Institute

Jul - Sep 2025, May - Jun 2026

- Designed and developed Dunes Dictionary end to end, from research and wireframing to implementation and deployment.
- Led front-end development and implemented back-end features and an admin dashboard to track user activity, manage term uploads, and support live system updates.
- Featured in *Next Culture Producer, Season 4: Text*, a Chanel Culture Fund and Power Station of Art initiative in Shanghai.

Designer & Front-End Developer (Volunteer) | SheNicest | Remote

2026 - Present

- Design and develop the responsive website for a women-focused technology and design community, covering UI/UX design and front-end implementation.
- Create visual assets, merchandise, and event materials for technology and design hackathons.

UI/UX Designer (Intern) | Cyber Partner AI | Shanghai, China

May - Jun 2025

- Designed wireframes and prototypes for company B2B website; collaborated with developers to refine usability and ensure smooth launch.
- Researched LLM commercialization opportunities and supported embodied robotics partners on real-world event adaptations.
- Authored robotics operation manual sections, improving usability and clarity.
